

REINFORCEMENT ACTIVITIES

Subject: Natural Sciences

Grade: 2nd

Period: 2

Year: 2019

SUGGESTION

Each period, the teacher formulates a problematizing question or situation related to the learning goals that help the student to train him/herself and get ready to prove his/her knowledge and proficiency levels in each area. This process is scheduled for the week in May from 20th to 24nd. The student should consult the bibliographic references cited by the teacher and turn in three academic products for the period written with basic standards to give account for the skills acquired.

1. Problematizing question:

- How do climate changes influence the adaptation process of living beings in the environment?

2. Learning Goals:

- I am able to recognize the various climatic changes and the influence they have on living beings and the environment.
- I am able to relate the different types of climate and how they affect the lifestyle of people in different geographical areas.

3. Academic products:

- Write and draw four types of weather.
- Write and draw the four seasons of the year in other countries.
- Mention two examples of force and two examples of motion.
- Draw and write 3 appropriate clothes for winter.
- Draw and write 3 objects that use gas to move.

4. Bibliographic references:

- Notebook.
