

Supplementary support plans

Subject: Technology and Computing **Grade:** 6 ° Bilingual **School term:** 2nd

Year: 2019

RECOMMENDATIONS

Every school term, teacher formulates a problematizing question or problematizing situation related to the learning goals, in order to help the student to be prepared to sustain their knowledge and levels of competence from each area. This process is scheduled from Monday, May 20th to Friday, May 22th, 2019. The student should consult the bibliographic references cited by teachers in each subject and deliver the three products of the period by means of written works using basic standards to prove the acquired skills.

Problematizing question:

What are the benefits of using the computer tools of a word processor to present information with different characteristics and formats?

Learning goals:

- To Identify the word processor tools to design visually appealing documents.
- To explore different tools for text and paragraph formatting, as well as information diagramming.
- To design visually aesthetic and interactive digital presentations about specific topics using formatting tools, design, animations, transitions, numbering and bullets.
- To know the main characteristics for the assembly of a business.

School term products:

1. Supported in the digital resource Word, elaborate the following work using APA standards. (All the worked in class):
 - Cover, introduction, justification, general objective and specific objectives (2), theoretical framework (development of the query), conclusion, bibliography.
 - Keep in mind the font, the font size, alignment, spacing, indentation, margin, title 1 and title 2.
 - a. What is an enterprise?
 - b. Which are the elements of an enterprise?
 - c. Types of enterprises
 - d. What is a business purpose?
