

Supplementary support plans

Subject: Technology and Computing **Grade:** 9 ° basic **School term:** 2nd **Year:** 2019

RECOMMENDATIONS

Every school term, teacher formulates a problematizing question or problematizing situation related to the learning goals, in order to help the student to be prepared to sustain their knowledge and levels of competence from each area. This process is scheduled from Monday, March 18th to Friday, March 22nd, 2019. The student should consult the bibliographic references cited by teachers in each subject and deliver the three products of the period by means of written works using basic standards to prove the acquired skills.

Problematizing question:

How can I use the technology to propose solutions to context problems and support the development of entrepreneurial projects?

Learning goals:

- ✓ To identify Microsoft Excel worksheet tools in order to design different spreadsheets
- ✓ To apply different formulas and functions in Excel worksheet to solve problems that require mathematical operations.
- ✓ To apply concepts of corporate image and company creation to propose entrepreneurial project
- ✓ To manage Microsoft Word tools to apply APA standards in documents where the student theoretically bases an entrepreneurial project.

School term products

- 1. Excel manufactures the following invoice applying formats seen in classes.**

[illegible]

Toda cuenta de cobro se sujeta en todos sus efectos a una letra de cambio y acuerdo al artículo 774 del código de comercio

2. Apply the respective formulas for
